

SUSTAINABLE, SAFE & SECURE THROUGH DEMANDE DEMANDE REDUCTION

eceee 2024 Summer Study on energy efficiency 10-15 June • Center Parcs Lac d'Ailette, Hauts-de-France

Europe's most important energy efficiency event

The atmosphere is truly energising: nine panels with over 200 presentations based on peer-reviewed papers or extended abstracts, 40+ informal sessions, side events, evening plenaries and intense networking!

Held for the first time in 1993, our Summer Study now gathers 400 energy efficiency professionals for five full days. The setting is informal and the vision is shared: to explore and expand the crucial role of energy efficiency in the sustainable energy transition.

Probably one of the best energyefficiency events I ever attended ⁷⁷

Summer Study participant

New venue perfectly located for easy access by train

For the 2024 edition of the Summer Study, eceee has chosen a new venue: Center Parcs Lac d'Ailette. This is a holiday resort and conference centre located about an hour northeast of Paris, in the direction of Reims and the Champagne-Ardenne region.

The event is offered as a one-week package with full board accommodation in small cottages spread around the area. All participants will have access to free bikes to move around the area.

Easy access

EUROPEAN COUNCIL FOR AN ENERGY EFFICIENT

> It is easily accessible by train from around Europe, as well as with train from the Paris Charles De Gaulle Airport.

Energy efficiency is crucial for decarbonisation

The climate urgency needs ambitious and effective policies and implementation. Without efficiency and energy demand reduction, we simply won't afford the transition or achieve it fast enough.

We are facing a new reality with the war in Ukraine, the energy and supply chain security crisis, the slow progress in global GHG reductions, and the challenges to create social acceptance for the common goal.

Moving the frontiers

EUROPEAN COUNCIL FOR AN ENERGY EFFICIENT

> The eceee Summer Study moves the frontiers of energy policy and established practices. These are five days that shape tomorrow's European energy efficiency policy.

eceee is one of the best conferences for networking given the venue and length of the conference. It was great to meet in person again and hear what has been happening in the other countries/organisations."

Summer Study participant

Beyond a traditional conference

The eccee Summer Study is not your standard conference. It offers a mix of practical hands-on experience and scientific stringency in a setting ideally suited for networking and information exchange.

Over the years, eceee has developed a conference format where presentations based on peer-reviewed papers and abstracts in parallel panels are mixed with workshops and informal sessions.

One of eccee's aims is to keep building on the basis of evidencebased knowledge, analysis and information, while we develop a global community of highly motivated experts. We expect about 400 participants, but the community being built around the conference extends beyond the participants.

The Summer Study lasts for five days and eceee offers the conference as a five-day, full-board package. The majority of participants stay throughout the week on site. Everyone you meet will be passionate about energy efficiency and discussions take place around the clock.

K Excellent conference with friendly participants who feel very enthusiastic about the work that they do.**77**

Five intense days

The eceee Summer Study offers five intense days of formal paper presentations, informal sessions, side events and plenary talks.

Day and night, you will find hundreds of people eager to discuss energy efficiency.

Mornings – panel sessions:

From Tuesday to Friday, between breakfast and lunch, the nine panels run in parallel for the presentation and discussion of peerreviewed papers and abstracts.

Afternoons – a less formal approach:

The period after lunch each day is reserved for informal sessions in which any participant can set up a discussion on a current energy efficiency issue. Side events run in parallel.

Display session:

The display (or poster) session is held during one afternoon.

Evenings – plenary sessions:

Plenary sessions are held in the early evenings. High-profile speakers from around the world are invited as plenary speakers.

An excellent training event

EUROPEAN COUNCIL FOR AN ENERGY EFFICIENT

> Many companies and public institutions send staff to the Summer Study for a week of training in energy efficiency and networking with Europe's energy efficiency community. Here, your staff can meet experts with up-to-date real knowledge of energy efficiency, in terms of both technology and policy.

> The week will help participants to better understand what works and what doesn't, sharing knowledge and experience from countries throughout Europe and globally.

Through the Summer Study, eceee offers training at a considerably lower cost than traditional training courses.

I loved the length of a full week, this provided the opportunity for setting up a real network and talk/meet several times.⁷⁷

Your organisation can be a partner in this process

All partners will enjoy the benefits of visibility on the eceee web site, conference materials, and conference displays.

By becoming a partner, your company is associated with the state-of-the-art knowledge in energy efficiency that is such an integral part of the Summer Study. This not only refers to technical solutions, but as much to policy, programmes, financing mechanisms and user behaviour.

eceee – with its established track record of credible and evidence-based information – offers you visibility in a context where unbiased quality and credibility is a key feature. The summer study is a valuable meeting place between researchers, national policy makers, the EU commission, and representatives from consulting companies and industry.

The advantage of being a partner

Side events

EUROPEAN COUNCIL FOR AN ENERGY EFFICIENT

> The Side events are organised in an informal fashion, planned in the programme and announced in advance. They are held in parallel with informal sessions and other side events, but eceee works to ensure that parallel events are not competing for an audience with similar interests.

You develop the side event together with eceee's energy efficiency experts. eceee also offers partners to set up an Exclusive Side Event. Only one Exclusive Side Event will be held.

Sponsoring a cocktail or host a plenary

Partners may also host the welcome cocktail or host one of the plenaries. We are happy to discuss options further.

Information

For more information, contact Nils Borg, Executive Director, at **nils@eceee.org**

The networking opportunities at the summer study are unparalleled – I have a fantastic time catching up with old friends and collaborators and making new ones. Each year it gets better on that front.⁷⁷

Partners benefits overview Gold, Silver and Bronze Partners can also select options from the custom packages offered in those categories. These are outlined below. eceee is happy to assist in developing a package that suits the needs of each partner. Combinations of different packages are an option.		Silver Partner €16,000	Bronze Partner €13,000	Contributor €8,000
Free conference registrations, numbers of people ¹		3	2	1
Logo and link on eceee Summer Study web site		х	х	х
Logo on proceedings web site for approximately 1 year		х	х	х
Logo in promotional e-mails		х	х	х
Logo displayed at conference venue		х	х	х
Small display at conference (3 sqm, poster or pop-up screen)				х
Medium display at conference (appr 6 sqm)			х	
Large display at conference (appr 9 sqm)		х		
Extra large, prominent display at conference (above 10 sqm)				
Custom partner package (see below)		х	х	
Include information material in attendees package	х	х		

¹⁾ The conference fee does not include accommodation, which has to be paid separately.

Custom package Gold Partners (either or combination of the below)

Gold Partners are offered great flexibility in combining the options from the custom partner package described below.

Host a plenary session or Exclusive Side Event

As a Gold Partner you are seen as a true leader in energy efficiency, and you are invited to host a plenary session and deliver a keynote address or host an Exclusive Side Event.

Host social event

Your organisation hosts the social event in a pleasant and informal atmosphere. You have the opportunity to deliver a gift or information to the participants.

Custom package Silver Partners (either or combination of the below)

Host cocktail reception on first day

After the opening plenary, all participants are invited to a cocktail reception to start the networking and get to know each other.

Host Side Event

At the Summer Study, you are invited to set up a parallell Side Event where you develop the agenda together with eceee's energy efficiency experts.

Host display session

The display session is a highly informal event where many participants present their posters describing their projects. During the event drinks and snacks are served and participants mingle and discuss in a relaxed atmosphere for about two hours.

Custom package Bronze Partners (either of the below)

Host Side Events jointly with other partners

Bronze partners are invited to host a parallell Side Event. The content of these workshops are developed together with eceee.

About eceee

EUROPEAN COUNCIL FOR AN ENERGY EFFICIENT

eceee, the European Council for an Energy Efficient Economy,

is the largest non-profit, membership-based energy efficiency NGO in Europe. The goal of eceee is to promote energy efficiency through co-operation and information exchange.

To facilitate this, eceee provides evidence-based knowledge, analysis and information. eceee provides an information service through its web site and news service, arranges conferences and workshops and takes active part in the European energy efficiency policy discussions.

One of eceee's principal events is the five-day Summer Study held in June every two years. Since 2012, eceee sets up a dedicated industrial event as well.

For more information, visit our website - www.eceee.org

What a terrific event! The Summer Study was informative, thought provoking, friendly and inspiring. Well done!⁷⁷
